CANDLES YOU CAN TRUST

KUNST
INDUSTRIEN

Our Vision

Dear Everyone,

Welcome to our new catalogue for the season 2020/2021. KunstIndustrien continues to aim at launching new sustainable and social responsible products and this year is no exception, and we are very proud to present you with new products as well as new inspiration.

Allow us to introduce our new Outdoor Living brand, Living by Heart, with the vision of expanding our range of social responsible products. The products are made in corporation with local social economic developments that aids challenged young people getting a possibility to learn new skills and do meaningful work which will help them on in life.

Further more we introduce our new advent candle packages with our famous Wax Alter Candles. Of course using RSPO Sustainable Stearin.

Check out the new inspiring decoration tips from the florist designers Annette von Einem as well as from Karen Kjeldsen. Finally we are happy to present a variety of new Calendar and Advent Candles including Royal Slim Calendar Candles.

Please also get acquainted with one of Copenhagen's prominent restaurants, Amass, which we collaborate with in our Zero Waste Project. We are very proud of these partnerships with the Danish restaurants where we re-use all waste material.

We hope our catalogue will bring much joy and inspiration.

*All the best
Britta & Steen*

WELCOME TO
 KUNSTINDUSTRIEN

“KUNSTINDUSTRIEN CONTINUES TO AIM AT LAUNCHING NEW SUSTAINABLE AND SOCIAL RESPONSIBLE PRODUCTS”

LOVE OF CANDLES

Handcrafted Quality

Exquisite quality, the best raw materials and craftsmanship are the essence of Kunst-Industrien. Our collection presents a unique variety of quality candles; our own classic wax altar candles, the slim Italian church candles, the Giants and the eco-labelled candles, the coloured candles, Living by Heart and the Christmas candles – all of which are unique in their own special way.

Our own wax altar candles are made with RSPO stearin, and they are truly handmade. The only machinery we use is an electric melting pot and an old Grundfos pump. Everything else is done manually by a very experienced team of candle makers – from preparing the molds to wrapping the candles. The wick that is carefully adapted to the diameter of the candle means that each candle rarely runs. Our wax altar candles

burn stable, beautiful and longer than most candles –some up to 800 hours.

Our wax altar candles are tested for soot at an approved laboratory. The result should be between 0 and 1, where 0 is best. Our candles scored as low as 0.04, and is thus among the very best in the market.

Our unique selling points (USPs) are;

- Craftmanship used with the best available raw materials on the market.
- How we can combine tradition with new ideas.
- Emphasis on respecting the environment.
- Keeping up the high quality, functionality and aesthetics of our wax altar candles.

Left: The wax altar candles are drying up and cooling down before removed from the holders.

Above: Glimps from the wax altar candle production.

CERTIFIED CONSCIENCE

Did you know that there is an EN test for candles?

Of course our popular wax altar candles has been tested.

FACTS about EN-test for candles:

EN 15426: Fire safety E.G: the candle must not flare up again when it has been turned off.

EN 15493: Sodindex / Soot Index

May not exceed "1". Index is a value between 0 and 1, where lower values are best.

EN 15494: Product safety labeling – Warning symbol requirements and product label information

More info about EN-Test @ kunstindustrien.dk

THE IMPORTANCE OF Sustainability

Our goals and ambitions towards sustainability is a challenge that involves production, transport, lifestyle and changing consumer habits and attitudes. The opportunities for living sustainable require changes. Now!

We must promote a more sustainable development for both our people and our planet, and at KunstIndustrien we consider the needs of present and future generations, being very aware that our entire business must be conducted in a way that is socially and environmentally sustainable. Therefore we have set up well defined ambitions and goals. Our vision and strategy are built on several key ambitions:

Global Goals

We support the UN's world goals for sustainable development and do so with a measurable result. Primarily focusing on goals 8, 12 and 13 (see below).

Packaging Materials

We are packing a huge number of boxes for shipping which requires miles of plastic tape. KunstIndustrien has replaced the traditional package tape with re-cycled paper tape. We are using recycled paper boxes for all our Danish shipments and have also replaced the

white plastic foam packing filling with a natural packaging material made of corn starch.

Recycled stearin – Zero Waste Project

We have initiated a recycling concept with several of our restaurant customers where we collect the left-over wax altar candle stubs. We can use these stubs when we are producing our outdoor torches therefore eliminating all waste. We call it "the Zero Waste project".

Sustainable stearin

We only use RSPO stearin for our wax altar candles. Currently we are working towards a closer relationship with the manufacturer of our plant-based stearin. We want to support fair trade and improve the living and economic growth of the local farmers and their workers.

Our efforts are focused on creating a more sustainable business. We are using the best, cleanest and most stable plant-based stearin and paraffins available in the market to make our wax altar candles. This means that the candles, in addition to a slow combustion, also burn very clean and stable, and without any odours.

Our candles are produced with respect for the environment and with a focus on sustainability. **Help us support sustainability! Thank you.**

WE MEET 3 GLOBAL GOALS

The UN world goals are 17 concrete goals and 169 sub-goals, which commit all UN's 193 member states to completely abolish poverty and hunger in the world, reduce inequalities, ensure good education and better health for all, decent jobs and more sustainable economic growth. We work actively for goals 8, 12 and 13 in KunstIndustrien.

“THE ENVIRONMENT HAS HIGH PRIORITY. HOW WE PRODUCE CANDLES AS WELL”

EXCELLENT QUALITY

Wax altar candles

It all began with our wax altar candle made to the catholic church in Bredgade back in the 1940's. 70 years later the handmade candles still remain our signature product and Kunstindustrien has constantly improved the quality. Today, the wax altar candles are made with RSPO stearin, and are still truly handmade. The only machinery we use is an electric melting pot and an old Grundfos pump. Everything else is done manually by a very experienced team of candle makers – from preparing the molds to wrapping the candles. The special mix of high-grade waxes make our candles translucent and give them a beautiful glow when burning. The candles are tested and approved according to EN15493 for fire safety and

EN16426 for soot behavior. Our wax altar candles burn stable, beautiful and longer – up to 800 hours. Choose between more than 40 variations, and light our candle with certified conscience.

Nice to know...

RSPO stearin comes from certified plantations. We work constantly for a cleaner world, and to help preserve the rainforest and reduce the CO2 emissions. Our wax altar candles are also EN-tested for soot behavior and score very close to 0. In any way we can, Kunstindustrien will support sustainability.

Please find more details about wax altar candles on page 36.

CANDLESTICKS

Square and circle

Design with effect. The Square has become a classic and the Circle is based on the same design philosophy – functional and modern. A design that will fit in anywhere. White with a shiny glossy surface. Black with a matt and rustic surface. Choose from 7 different sizes. The candlesticks are all designed and manufactured by KunstIndustrien.

Please find more details about Square and Circle candlesticks on page 37.

A SUSTAINABLE CHOICE

for restaurants

In all modesty ...

We are known for producing candles to an exceptionally good quality. The candles are hand-molded individually using our 70 year old recipe and method. We are daily testing and observing that the flame will burn clearly and steadily in a quiet teardrop shape and to the edge as it should.

We will offer your restaurant candles which will not only give it a more Nordic look and create a cosy atmosphere at the table, but also one that provides your restaurant with a sustainable choice. We offer solutions – adapted to your individual restaurant:

Style and atmosphere at the table

A beautiful wax altar candle will set the ambience for the food you serve at your restaurant and will contribute to a great experience for your guests.

Saving time and space

Our wax altar candles burn longer than any other candles of similar size, which can save you space for storage and reduce the work of changing candles.

Less cleaning, washing and painting work

The wicks are closely matched to the diameter of the candle. Therefore, our candles very rarely run, saving you time and money on cleaning tables and washing tablecloths. The raw material is of such high quality that the candles do not ooze or smell. Thus, you should not paint as often.

Importance of sustainability

Help us support sustainability! We collect our wax altar candle stubs from your restaurant and re-cycle the stubs when making our outdoor torches.

JULIE ORLANDO – AMASS RESTAURANT

“Candles are very Danish. We “hygger”, but they also pull hard on the world’s CO2 account. That’s why we mix the candles on the tables with a small lamp. It works really well, and the cosiness of the candle is preserved,” says Julie Orlando, owner, and managing director.

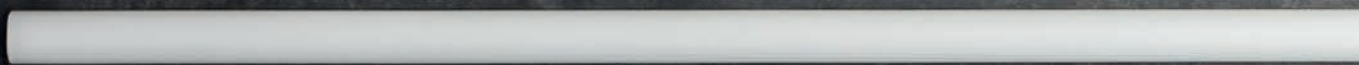

Restaurant Amass is all about having a mindset for sustainability, recycling, and thoughtfulness. The foundation of everything at Amass is to serve delicious food in an exciting atmosphere while being responsible along the way, in the kitchen as well as at the table. The mindset of Amass is to focus on avoiding food waste. It perfectly complements KunstIndustrien’s mindset.

Restaurant Amass is part of KunstIndustrien’s Zero Waste Project. We are very proud of partnerships such as this one, where we re-use all waste material for our outdoor torches.

More about: amassrestaurant.com

” The wax alter candles from KunstIndustrien are tested, classic, and burn nicely and for long periods of time. Not many candles will do that and we just love how the candles slowly turn into small works of art ”

77 cm

THE BEST RAW MATERIALS

Unique candles

EXTRAORDINARY LIGHT STANDS OUT.

We have found some neat candles from Italy and Germany made of the best raw materials that burn nicely and with a beautiful glow. We like that they look a bit different; elegant small different in a well-known design. We love the extraordinary long candles of 77 cm. Worth a consideration if you want to try something else for your home, or maybe an upcoming dinner party.

Please find more details about Unique candles on page 37.

THE ORIGINAL PRAYER CANDLE

YOU CAN RECOGNISE IT ON
ITS TINY SIZE & COLOUR

This popular little candle is the original. You will recognise it by the colour and the surface, and the fact that it's only 10 cm of size. A small candle with a long story. The candle goes back in history more than 100 years and it has always been made from two kinds of paraffin – soft on the inside and hard on the outside. This ensures a perfect burn.

To stay original, it is only available in ivory white. For those who appreciate originals.

Please find more details about Prayer candles on page 38.

ECO-LABELLED CANDLES *from northern Sweden*

Taper Candle
SV-2435
(35 cm)

Canal Candle
SV-KA2420
(20 cm)

Taper Candle
SV-2425
(25 cm)

These candles carry the Nordic Swan eco-label. With production facilities being kept cool by circulating water from a nearby lake, and with the candles made from renewable resources, you will enjoy these classic Nordic candles with a clean conscience. Please find more info on eco-labelled candles on page 41.

NO DRIP CANAL CANDLES

This unique candle will not drip even under extreme conditions. Historically, the canal candle was used in churches as it will withstand the wind turbulence often present in the big indoor spaces of churches. The vertical channels inside the candle will simply collect any excess stearin. Today this brilliant candle has also found its place in hotels and restaurants – and of course in exposed places in private homes. The candle carries the Nordic Swan eco-label.

Please find more details about Canal candles on page 38.

NO DRIP FIDIBUS-CANDLES

This candle will not drip even if not standing straight! A long, super thin candle used to light up all those other candles, lighting the fireplace, or just enjoyed on its own – used creatively.

Idea: place several next to each other arranged in sand. It looks fantastic, and creates a wonderful atmosphere. Please find more info on fidibus candles on page 38

Italian CHURCH CANDLES

A unique family story comes along with our genuine Italian church candles. A young man escaped from the poverty of Sicily and went to Rome more than 100 years ago. Producing candles became a way to survive for the family and today second and third generations passionately continue to produce quality candles. Available in 4 variations – either in bulk or packed in gift boxes. An elegant slim candle of excellent quality.

Please find more details about Italian church candles on page 38.

”THE CANDLES ARE
COLOURED THROUGH AND
WILL BURN BEAUTIFULLY AND
ELEGANTLY FOR SEVERAL
HOURS. CHOOSE BETWEEN
38 COLOURS ”

COLOURED CANDLES

On your table

We love colours and enjoy how today's trend gives us the opportunity to mix and match colours thus making our interior space unique and personal. Not since the second world war have candles been used so much to tell stories, create style and design concepts, not to mention keeping hope and spirits up, as they do now. We are honoured to be able to provide high quality products for this requirement.

The colours of the candles can be matched to your personal preference; tone in tone or contrasting combinations to create your own unique style.

KunstIndustrien has 38 different colour candles to mix and match between, at 3 different heights which makes it easy and inspiring to create different settings to satisfy your mood, and taste. A change in just one colour can change the whole feeling of a room.

Our coloured candles have been made in Denmark since 1975 using the highest quality paraffin in the market. The candles are coloured through and will burn beautifully and elegantly for several hours.

COLOURED CANDLES

Short and long

COLOURED CANDLES – AVAILABLE IN 3 LENGTHS AND 38 COLOURS

These candles have been made in Denmark since 1975 by a family on the west coast of Jutland who strive for uncompromising quality. The colours are solid, which makes them more aesthetic and different from the majority of coloured candles on the market. Both models fit Bell, Square and Circle candlesticks perfectly. 20 cm, 35 cm and 45 cm. Diameter 2,2 cm.

SLIM CANDLES

COLOURED SLIM CANDLES – AVAILABLE IN 2 LENGTHS AND 38 COLOURS

Our slim candle is originally from Rome and white, but is now available in 38 solid colours in a quality that makes the candle burn stable and elegant hour after hour...

Both models fit Bell, Square and Circle candlesticks perfectly.
12 cm and 28 cm. Diameter 1,3 cm.

THE BELL candlestick – Large & Mini

Colour mix and match, candle and candlestick. Our Bell candlestick is available in a wide variety of colours. The Mini Bell in no less than 18 different varieties. The Bell in 9 varieties. Too much colour? You are always safe with white...

Please find more details about the Bell and Mini Bell candlesticks on page 50-51.

KEB-1312

BELL & MINI BELL *Candlesticks*

Every candle deserves a fine candlestick. Our Bell dress up the candle for every occasion in beautiful colours or in a variation of different metals. It comes in two sizes; one for regular taper candles and one for our small Italian church candles. Our Bell collection gives you a wide range of candlesticks to choose from. We will let it be your choice which ones to pick...

Please see our Bell and Bell Mini collection on page 50-51.

WITH THREE WICKS *A giant candle*

This giant candle with three wicks provides an entirely new experience of what a candle can be. More light. More life. And more volume brings new possibilities to interior design like no other candle. They are made by hand, one by one. Burns for hours and hours...

Our tripod holder fits the giant candle.

Please find more details about the Giant candles on page 41.

NEW IN OUR COLLECTION

LIVING BY HEART

We proudly present our newcomer: Living by Heart high quality interior candles for outdoor use. Everything is handmade and you can choose from several colours. Development and design take place in Sønderborg – Denmark. Our products make an inspiring outdoor environment and create a unique atmosphere in the outdoor living room”.

Please find more details about the Living by Heart candles on page 49.

Karen Kjeldsen

Creating true magic AT CHRISTMAS WITH CANDLELIGHT

We love candles and the cosy feeling that only a candle can give us, and we at KunstIndustrien do our utmost to make the best possible candles of their kind. Our signature candles are the unique wax alter candles. These are made with focus on caring for the human-nature relationship.

Florist Karen Kjeldsen, has used KunstIndustrien's wax alter candles for more than two decades. This is what she says about us:

"The wax alter candles from KunstIndustrien are stable, have a beautiful glow and have one of the lowest soot indexes in the market. I always use the wax alter candles in my signature advent wreath made of flax, it matches perfectly in size and style with the hurricane, from my daughters

interior design company; Trine K. If I use other candle brands than KunstIndustrien's I need to clean the hurricane glass every day. However, when using KunstIndustrien's wax alter candles there's no need for that".

Karen Kjeldsen is the owner of Flower and Interieur shop "I Rosens Navn" and she has her favorite candles being dia 7cm, 8,5 cm and 10 cm in various lengths.

When visiting the shop it is pure magic and you will find several sizes of the wax alter candles from KunstIndustrien on its shelves.

Hurricane decoration and Advent wreath by Karen Kjeldsen. Glass hurricane decoration by Annette von Einem.

Christmas BY KUNSTINDUSTRIEN

CERTIFIED CHRISTMAS CANDLES COUNT WEEKS AND DAYS.

Calendar and Advent candles are a beautiful Christmas tradition that require a candle that manages the task elegantly with a beautiful glow and pure burning.

KunstIndustrien uses certified stearin for our Christmas candles, which we know come from sustainable palm forestry, which bear the certification RSPO (Roundtable on Sustainable Palm Oil). Hereafter extraordinary measurements are taken to ensure that the palm oil is extracted under controlled conditions and takes nature into account. The candles are also EN-tested for soot and fire safety. You can without doubt light our X-mas candles with a better and greener conscience.

DRESS UP YOUR TREE WITH *beautiful Candles*

KEB-1313
(1,3*13 cm)

KEB-1312-xx
(1,3*12 cm)

You can choose from two different kinds; the Italian church candle, and the short coloured candle. The white Italian church candle burns for no less than 3 hours. The secret to the beautiful and long burning is the use of a very thin wick that uses less fuel and the good raw materials. The light is made of pure, highly refined paraffin and stearin, with a small amount of carnauba wax, a micro-wax from palm oil which is also used in a wide variety of make-up products.

Our elegant coloured candles burn for up to 2 hours and you can choose from 38 different colours.

Please find more details about our Christmas candles on page 43.

December Candles
ADVENT

ADVENT CANDLES *in Boxes*

The making of wreaths with candles is considered a must-have for most people for Christmas. It's a beautiful tradition to light a candle each Sunday in the 4 weeks before Christmas eve. What few people know is that the tradition goes all the way back to the 1920's and 1930's where it was only recognised in the Southern part of Denmark. It was not until the mid 1940's – when WWII had ended – that it was spread out to the rest of Denmark through the flower shops who incorporated the white candles and red ribbons into their wreath-making. This tradition became the symbol of Hope and Freedom.

To this day, we still diligently work on these 'small projects' and countdown to Christmas by making and enjoying advent wreaths with candles. This is an important part of Christmas. Many unique variations, styles and colours are being assembled, however one thing is always important; that the candle provides a wonderfully warm glow and burn so that the wreath will stay beautiful week after week.

This year, KunstIndustrien is proud to present two new advent candles in gift boxes.

Box I: 4 pieces of 6 cm diameter candles (12 cm).

Box II: 4 pieces of 5 cm diameter candles in different lengths (15, 20, 25 and 30 cm). Please find more details about our Advent candles in boxes on page 45.

A MODERN CLASSIC

The design is sharp and simple, and our certified RSPO wax altar candles are hand-molded, and manufactured individually. At Christmas the 30 cm wax altar candles are dressed up as December calendar candles with monoline numbers.

December calendar candles are a Danish tradition from 1940's, and it takes a quality candle to burn stable and with beautiful glow all 24 days. The high quality raw materials give the candle its unique colour and stable slow burning.

The wick is carefully adapted to the diameter of the candle, which means that the candle very rarely runs. Choose from 4 colours.

Please find more details about Monoline calendar candles on page 44.

"The design is sharp and simple, and our certified RSPO wax altar candles are hand-molded, and manufactured individually after KunstIndustriens own proven recipe".

MONOLINE ADVENTS

Elegant certified Advent candles designed in Scandinavian simplicity in its pure form with our modern MONOLINE numbers. When less is more. Choose from 4 colours. **NEW: RED** Please find more details about Monoline advent candles on page 44.

Royal Candles

We just love this beautiful pattern. So much that we could not resist presenting the pillar candle in a taller version in the colours: blue and black.

The pattern originally came to Europe from China almost 300 years ago. Over the centuries, it has been modified and used by leading porcelain manufacturers across Europe, and for more than 50 years the classic fluted pattern has been printed on our candles and napkins.

For everyday use, dining, and the calendar edition for Christmas.

THE NAPKINS ARE
FSC APPROVED!

Please explore our range of
Royale candles and napkins
on page 39-41.

DRESS UP WITH *December Candles*

Our certified wax altar candles dressed up as December candles. Same handmade quality, but with a different look.

December candles are a Danish tradition from 1940's, and our RSPO Christmas collection are manufactured individually at KunstIndustriens own foundry after many years of proven recipe and method.

The secret of the beautiful glow in our wax altar candles is the special combination of the raw materials that gives the candle its unique colour and stable slow burning. The wick is carefully adapted to the diameter of the candle, which means that it very rarely runs.

Tradition (30cm)

Standard length but with a wide selection of colours. With a minimum of 14 different.

ALSO AVAILABLE IN 6*40CM

Decor (35cm)

Extra length and lasts longer. You can choose from 3 variations. Gold, silver & black. Perfect for christmas decorations.

Please find more details about Tradition and Decor on page 43-44

**Avoid fire! Please always remember to make sure there is proper distance between the Christmas decoration and the candle.*

ACCESSORIES

CANDLE DEXTINGUISHER
To avoid toxic smoke and running wax (if you blow too hard) when you put out the candle. T-LS

CANDLE SHARPENER
Too big? The candle sharpener will solve the problem and collect the waste for you. It works just like a pencil sharpener, only bigger, and will be delivered in a ready-to-sell display

MOTHER'S LITTLE HELPER
Too small? Add one or two of these almost invisible helpers T-LAM - Golden. T-LAS - Aluminum.

FIX CANDLE
Do you want to place your candles creatively? Fix Candle is a soft candle wax that can be re-used. It works even under water and will melt and burn just like a candle if in contact with fire. T-FIX

No.	Colour	Item	Package
T-LH	White	Sharpener	24 pcs
T-LS	Metal	Extinguisher	60 pcs
T-LAM	Brass	Adaptor	100 pcs
T-LAS	Silver	Adaptor	100 pcs
T-FIX	White	Adhesive	16 pcs

KUNST
INDUSTRIEN

CANDLES YOU CAN TRUST

EXQUISITE QUALITY

The best raw materials and craftsmanship are the essence of Kunst-Industrien, and every design carries a story. Our collection presents a unique variety of candles; our own classic wax altar candles, the slim Italian church candles, the Giant and the eco-labelled candles, the coloured candles, Living by Heart and the Christmas candles – they are all unique in their own way.

” KUNSTINDUSTRIEN CONTINUES
TO AIM AT LAUNCHING NEW
SUSTAINABLE AND SOCIAL
RESPONSIBLE PRODUCTS. ”
