KUNST
INDUSTRIEN

HOW IT ALL STARTED... *Family*

Once upon a time there was a bookstore in a street named Bredgade in the city of Copenhagen. KunstIndustriens story started in the 1940's in this distinguished bookstore in Bredgade 67. The store specialised in Catholic literature, and was a supplier to the catholic church, Sankt Ansgar.

In 1947 Sven Erik Damsholt was hired and the bookstore became known as Sankt Ansgar Bookstore, and not only as a supplier for catholic literature. Soon it was not only supplying religious books, but also fine quality handmade candles.

Lack of profit in producing books gave Sven Erik Damsholt an idea, and when he became sole owner of the bookstore, he started his own home production of the hand-dipped wax altar candles for the church. In the beginning the production was done in the back of the store, and it took 8 days to produce 20 candles.

He called his candle company KunstIndustrien after the former museum Kunst-Industriens Hus, which was placed right across the street. Later KunstIndustrien was passed on to his son-in-law, Ib Diamant, who ran and expanded the company for the next 30 years. Today, KunstIndustrien produces more than 60,000 wax altar candles a year and is owned by the entrepreneurial couple Steen and Britta Frost. KunstIndustrien presents a wide collection of quality candles each with its own special story. It all still stays very much, within in the family.

1. Former Kunstindustri Museum, Bredgade, Copenhagen
2. Meet the owners: Britta and Steen Frost
3. Glimps from the production. Hot stearin is poured into the molds.

” IT ALL STARTED IN A BOOKSTORE IN THE MIDDLE OF COPENHAGEN RIGHT ACROSS THE FORMER KUNSTINDUSTRIENS HUS ”

HANDCRAFTED Quality

Exquisite quality, the best raw materials and craftsmanship are the essence of Kunst-Industrien. Our collection presents a unique variety of quality candles; our own classic wax altar candles, the slim Italian church candles, the Giants and the eco-labelled candles, the coloured candles and the Christmas candles – all of which are unique in their own special way.

Our own wax altar candles are made of RSPO stearin, and they are truly handmade. The only machinery we use is an electric melting pot and an old Grundfos pump. Everything else is done manually by a very experienced team of candle makers – from preparing the molds to wrapping the candles. The wick that is carefully adapted to the diameter of the candle means that each candle rarely runs. Our wax altar candles

burn stable, beautiful and longer than most candles – some up to 800 hours.

In December 2016 we tested our wax altar candle for soot at an approved laboratory. The result should be between 0 and 1, where 0 is best. Our candles scored as low as 0.04, and is thus among the very best in the market.

Our unique selling points (USPs) are;

- Craftmanship used with the best available raw materials on the market.
- How we can combine tradition with new ideas.
- Emphasis on respecting the environment.
- Keeping up the high quality, functionality and aesthetics of our wax altar candles.

Left: The wax altar candles are drying up and cooling down before removed from the holders.

Above: Glimps from the wax altar candle production.

CERTIFIED CONSCIENCE

Did you know that there is an EN test for candles?

Of course our popular wax altar candles has been tested.

FACTS about EN-test for candles:

EN 15426: Fire safety E.G: the candle must not flare up again when it has been turned off.

EN 15493: Sodindex / Soot Index

May not exceed "1". Index is a value between 0 and 1, where lower values are best.

EN 15494: Product safety labeling – Warning symbol requirements and product label information

More info about EN-Test @ kunstindustrien.dk

THE IMPORTANCE OF *Sustainability*

Our goals and ambitions towards sustainability is a challenge that involves production, transport, lifestyle and changing consumer habits and attitudes. The opportunities for living sustainable require changes. Now!

We must promote a more sustainable development for both our people and our planet, and at KunstIndustrien we consider the needs of present and future generations, being very aware that our entire business must be conducted in a way that is socially and environmentally sustainable. Therefore we have set up well defined ambitions and goals. Our vision and strategy are built on several key ambitions:

Global Goals

We support the UN's world goals for sustainable development and do so with a measurable result. Primarily focusing on goals 8, 12 and 13 (see below).

Packaging Materials

We are packing a huge number of boxes for shipping which requires miles of plastic tape. KunstIndustrien is replacing the traditional package tape with re-cycled paper tape. We are already using recycled paper boxes for all our Danish shipments and are also replacing

the white plastic foam packing filling with a natural packaging material made of corn starch.

Recycled stearin – Zero Waste Project

We have initiated a recycling concept with several of our restaurant customers where we collect the left-over wax altar candle stubs. We can use these stubs when we are producing our outdoor torches therefore eliminating all waste. We call it "the Zero Waste project".

Sustainable stearin

We only use RSPO stearin for our wax altar candles. Currently we are working towards a closer relationship with the manufacturer of our plant-based stearin. We want to support fair trade and improve the living and economic growth of the local workers.

Our efforts are focused on creating a more sustainable business. We are using the best, cleanest and most stable plant-based stearin and paraffins available in the market to make our wax altar candles. This means that the candles, in addition to a slow combustion, also burn very clean and stable, and without any odours.

Our candles are produced with respect for the environment and with a focus on sustainability. **Help us support sustainability! Thank you.**

WE MEET 3 GLOBAL GOALS

The UN world goals are 17 concrete goals and 169 sub-goals, which commit all UN's 193 member states to completely abolish poverty and hunger in the world, reduce inequalities, ensure good education and better health for all, decent jobs and more sustainable economic growth. We work actively for goals 8, 12 and 13 in KunstIndustrien.

EXCELLENT QUALITY *Wax altar candles*

It all began with our wax altar candle made to the catholic church in Bredgade back in the 1940's. 70 years later the handmade candles still remain our signature product and Kunstindustrien has constantly improved the quality. Today, the wax altar candles are made with RSPO stearin, and are still truly handmade. The only machinery we use is an electric melting pot and an old Grundfos pump. Everything else is done manually by a very experienced team of candle makers – from preparing the molds to wrapping the candles. The special mix of high-grade waxes make our candles translucent and give them a beautiful glow when burning. The candles are tested and approved according to EN15493 for fire safety and EN16426 for

soot behavior. Our wax altar candles burn stable, beautiful and longer – up to 800 hours. Choose between 31 variations, and light our candle with certified conscience.

Nice to know...

RSPO stearin comes from certified plantations. We work constantly for a cleaner world, and to help preserve the rainforest and reduce the CO2 emissions. Our wax altar candles are also EN-tested for soot behavior and score very close to 0. In any way we can, Kunstindustrien will support sustainability.

Please find more details about wax altar candles on page 40.

CANDLESTICKS *Square and circle*

Design with effect. The Square has become a classic and the Circle is based on the same design philosophy – functional and modern. A design that will fit in anywhere. White with a shiny glossy surface. Black with matt surface. Choose from 7 different sizes. The candlesticks are all designed and manufactured by Kunstindustrien.

Please find more details about Square and Circle candlesticks on page 41.

A SUSTAINABLE CHOICE *for restaurants*

In all modesty ...

We are known for producing candles to an exceptionally good quality. The candles are hand-molded individually using our 70 year old recipe and method. We are daily testing and observing that the flame will burn clearly and steadily in a quiet teardrop shape and to the edge as it should.

We will offer your restaurant candles which will not only give it a more Nordic look and create a cosy atmosphere at the table, but also one that provides your restaurant with a sustainable choice. We offer solutions – adapted to your individual restaurant:

Style and atmosphere at the table

A beautiful wax altar candle will set the ambience for the food you serve at your restaurant and will contribute to a great experience for your guests.

Saving time and space

Our wax altar candles burn longer than any other candles of similar size, which can save you space for storage and reduce the work of changing candles.

Less cleaning, washing and painting work

The wicks are closely matched to the diameter of the candle. Therefore, our candles very rarely run, saving you time and money on cleaning tables and washing tablecloths. The raw material is of such high quality that the candles do not ooze or smell. Thus, you should not paint as often.

Modern and functional

The candles are designed with a flat top and bottom in a tight and elegant Nordic design expression.

Importance of sustainability

Help us support sustainability! We collect our wax altar candle stubs from your restaurant and re-cycle the stubs when making our outdoor torches.

NON-TOXIC, LONG LASTING AND IN ALL SHAPES AND SIZES. AN IDEAL SOLUTION FOR YOUR RESTAURANT.

[Please find more details about wax altar candles and candlesticks on page 40 and 41.](#)

ECO-LABELLED CANDLES *from northern Sweden*

Taper Candle
SV-2435
(35 cm)

Canal Candle
SV-KA2420
(20 cm)

Taper Candle
SV-2425
(25 cm)

These candles carry the Nordic Swan eco-label. With production facilities being kept cool by circulating water from a nearby lake, and with the candles made from renewable resources, you will enjoy these classic Nordic candles with a clean conscience. **Please find more info on eco-labelled candles on page 41.**

THE BELL Candlestick – Large & Small

So popular! One for regular table candles, and one for our small Italian church candles. This candlestick is available in a wide variety of colours. The small Bell, no less than 18 different varieties. The large Bell in 9 varieties.

Please find more details about Bell & Mini Bell on page 49-50.

KEB-927
(0,9*27 cm)

FIDIBUS-CANDLES

– will not drip even if not standing straight!

A long, super thin candle used to light up all those other candles, lighting the fireplace, or just enjoyed on its own – used creatively.

Idea: place several next to each other arranged in sand. It looks fantastic, and creates a wonderful atmosphere.

Please find more info on fidibus candles on page 42.

ITALIAN CHURCH CANDLES

A unique family story comes along with our genuine Italian church candles. A young man escaped from the poverty of Sicily and went to Rome more than 100 years ago. Producing candles became a way to survive for the family and today second and third generations passionately continue to produce quality candles. Available in 4 variations – either in cartons or packed in gift boxes. An elegant slim candle of excellent quality.

Please find more details about Italian church candles on page 42.

THE BEST RAW MATERIALS *Unique candles*

EXTRAORDINARY LIGHT STANDS OUT. We have found some neat candles from Italy and Germany made of the best raw materials that burn nicely and with a beautiful glow. We like that they look a bit different; elegant small different in a well-known design. We love the extraordinary long candles of 77 cm. Worth a consideration if you want to try something else for your home, or maybe an upcoming dinner party.

[Please find more details about Unique candles on page 42.](#)

”If needed, we have
candlesticks to match”

NO DRIP *Canal candles*

This unique candle will not drip even under extreme conditions. Historically, the canal candle was used in churches as it will withstand the wind turbulence often present in the big indoor spaces of churches. The vertical channels inside the candle will simply collect any excess stearin. Today this brilliant candle has also found its place in hotels and restaurants – and of course in exposed places in private homes. The candle carries the Nordic Swan eco-label.

Please find more details about Canal candles on page 42.

THE ORIGINAL *Prayer candles*

YOU CAN RECOGNISE IT ON ITS COLOUR

This popular little candle is the original. You will recognise it by the colour and the surface, and the fact that it's only 10 cm of size. A small candle with a long story. The candle goes back in history more than 100 years and it has always been made from two kinds of paraffin – soft on the inside and hard on the outside. This ensures a perfect burn.

To stay original, it is only available in ivory white. For those who appreciate originals.

Please find more details about Prayer candles on page 42.

NEW BLUE FLOWER

Blue Flower
S-BB3333

NEW
Blue Flower
B-MBB718

NEW
Blue Flower
S-BB2324

The romantic decoration has been known and used by leading porcelain manufacturers across Europe since the beginning of 1775 and is now more popular than ever. Our Blue Flower candle is pressed in form one by one and the fine pattern is created with water-based color. On top we add a thin layer of stearin to protect the pattern. The candles are made of 100% stearin and produced in Denmark. Our candle carries the Nordic Swan eco-label, and the napkins are FSC approved – of course!

[Please find more details about the new Blue Flower on page 43.](#)

GOLD AND SILVER FLUTED

Silver Fluted
B-MSI718/K-718-MSI
(7*18cm)

Gold Fluted (december)
B-MG0718/K-718-MGO
(7*18cm)

We just love this beautiful pattern. So much that we could not resist presenting the pillar candle with the pattern also in shiny silver. The pattern originally came to Europe from China almost 300 years ago. Over the centuries, it has been modified and used by leading porcelain manufacturers across Europe, and for more than 50 years the classic fluted pattern has been printed on our candles and napkins. Now also in silver. For everyday use, dining, and the calendar edition for Christmas.

THE NAPKINS ARE FSC APPROVED!

Please explore our range of [Royale candles and napkins in gold and silver on page 43-45.](#)

BELL & MINI BELL *Candlesticks*

Every candle deserves a fine candlestick. Our Bell dress up the candle for every occasion in beautiful colours or in a variation of different metals. It comes in two sizes; one for regular taper candles and one for our small Italian church candles. Our Bell collection gives you a wide range of candlesticks to choose from. We will let it be your choice which ones to pick...

Please see our Bell and Bell Mini collection on page 49-50.

WITH THREE WICKS
A giant candle

This giant candle with three wicks provides an entirely new experience of what a candle can be. More light. More life. And more volume brings new possibilities to interior design like no other candle. They are made by hand by one of the most knowledgeable candle makers in Denmark. Burns for hours, and hours... Our tripod holder fits the giant candle.
Please find more details about the Giant candles on page 45.

OUTSTANDING OUTDOOR CANDLES & TRIPODS

Our outdoor candles burn for hours and hours to make the summer last longer and to light up the winter. The outdoor candles are available in 6 sizes, and the tripod in black or galvanized metal, in 4 sizes. With our range of outdoor products, you get several combination options to light up front steps, terraces or garden paths. They may simply be placed anywhere – except inside.

TIP: When turning off the candle make sure to dip the wick into the soft candle mass - it makes it so much easier to light up again next time.

Please find more details about outdoor candles and Tripod on page 46.

F-15G
Ø 15 cm, Galvanized

Fire and glass NOW WITH WHITE BASE TOO

The warmth of fire through glass is unique. Beautiful to look at, and the glass protects the flame and will make the candle burn solid and stable. For use outside and inside. Our hurricane comes in three height sizes, h: 22 cm, 26 cm and 30 cm. The glass has either a rounded or a faceted edge. Turn the glass to get the expression you want.

The base is available in 3 sizes AND now both in black and white.
Please find more details about Hurricane glasses on page 46.

Christmas BY KUNSTINDUSTRIEN

CERTIFIED CHRISTMAS CANDLES COUNT WEEKS AND DAYS.

Calendar and Advent candles are a beautiful Christmas tradition that require a candle that manages the task elegantly with a beautiful glow and pure burning.

KunstIndustrien has used stearin from the 2017 season for our Christmas candles, which we know come from sustainable palm forestry, which bear the certification RSPO (Roundtable on Sustainable Palm Oil). Hereafter extraordinary measurements are taken to ensure that the palm oil is extracted under controlled conditions and takes nature into account. The candles are also EN-tested for soot and fire safety. You can without doubt light our X-mas candles with a better and greener conscience.

DRESS UP YOUR TREE WITH
beautiful Candles

KEB-1312-xx
(1,3*12 cm)

KEB-1313
(1,3*13 cm)

You can choose from two different kinds; the Italian church candle, and the short coloured candle. The white Italian church candle burns for no less than 3 hours. The secret to the beautiful and long burning is the use of a very thin wick that uses less fuel and the good raw materials. The light is made of pure, highly refined paraffin and stearin, with a small amount of carnauba wax, a micro-wax from palm oil which is also used in a wide variety of make-up products.

Our elegant coloured candles burn for up to 2 hours and you can choose from 38 different colours.

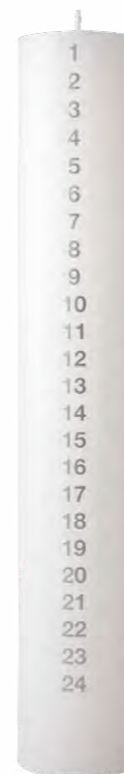

Please find more details about our Christmas candles on page 47.

December candles

Our certified wax altar candles dressed up as December candles. Same hand-made candle, but different look.

December candles are a Danish tradition from 1940's, and our RSP0 Christmas candles are hand-molded, and manufactured individually at KunstIndustriens own foundry after many years of proven recipe and method.

The secret of the beautiful glow in our wax altar candles is the special combination of the raw materials that gives the candle its unique colour and stable slow burning. The wick is carefully adapted to the diameter of the candle, which means that it very rarely runs. Choose between several different number lines in the coloured series or in the metal series.

Tradition

Standard length but with a wide selection of colours. With a minimum of 14 different. **ALSO AVAILABLE IN 6*40CM**

Decor

Extra length and lasts longer. You can choose from 3 variations. Gold, silver & black

SCANDINAVIAN SIMPLICITY *Monoline calendar*

The design is sharp and simple, and our certified RSP0 wax altar candles are hand-molded, and manufactured individually after KunstIndustriens own proven recipe and method. You can choose from more than 30 different sizes. At Christmas the 30 cm candles are dressed up as December calendar candles with monoline numbers.

December calendar candles are a Danish tradition from 1940's, and it takes a quality candle to burn stable and with beautiful glow all 24 days. The high quality raw materials give the candle its unique colour and stable slow burning. The wick is carefully adapted to the diameter of the candle, which means that the candle very rarely runs. Choose from 4 variations. Gold, silver, black and red.
Please find more details about Monoline calendar candles on page 48.

SCANDINAVIAN COOL

Different pinecones, thistles, moss and pine tree branches. Nature's own raw materials make a simple and beautiful decoration for our new fluted pillar calendar candle with its pattern in shiny silver. Mix and match your favourite materials from the nature, to create your own personal Christmas decoration.

MORE INSPIRATION FOR *Christmas*

ICE LANTERN

Our Wax Altar Candles gives your ice lantern a warm glow. It is easy to make an ice lantern and it will last all winter. Here we use leaves, amaryllis, eucalyptus, thistles and grape hyacinths. Use one larger and one smaller bucket in the middle. Put stones or something else heavy in the small bucket to keep it in place when you add water. Place leaves and flowers decoratively between the buckets. Place the buckets in the freezer overnight. Next day your ice lantern is ready for use. Enjoy all winter.

COLOURED CANDLES

Short and long

COLOURED CANDLES – AVAILABLE IN 3 HEIGHT SIZES AND 38 COLOURS

These candles have been made in Denmark since 1975 by a family on the west coast of Jutland who strive for uncompromising quality. The colours are solid, which makes them more aesthetic and different from the majority of coloured candles on the market. Both models fit Bell, Square and Circle candlesticks perfectly. 20 cm, 35 cm and 45 cm. Diameter 2,2 cm. Please see colour variations underneath as well as number. On page 49 you will find more info.

S-2220 S-2235 S-2245

SLIM CANDLES

COLOURED SLIM CANDLES – AVAILABLE IN 2 HEIGHT SIZES AND 38 COLOURS

Our slim candle is originally from Rome and white, but is now available in 38 solid colours in a quality that makes the candle burn stable and elegant hour after hour...

Both models fit Bell, Square and Circle candlesticks perfectly. 12 cm and 28 cm. Diameter 1,3 cm.

Please see colour variations underneath. On page 49 you will find more info on these particular candles.

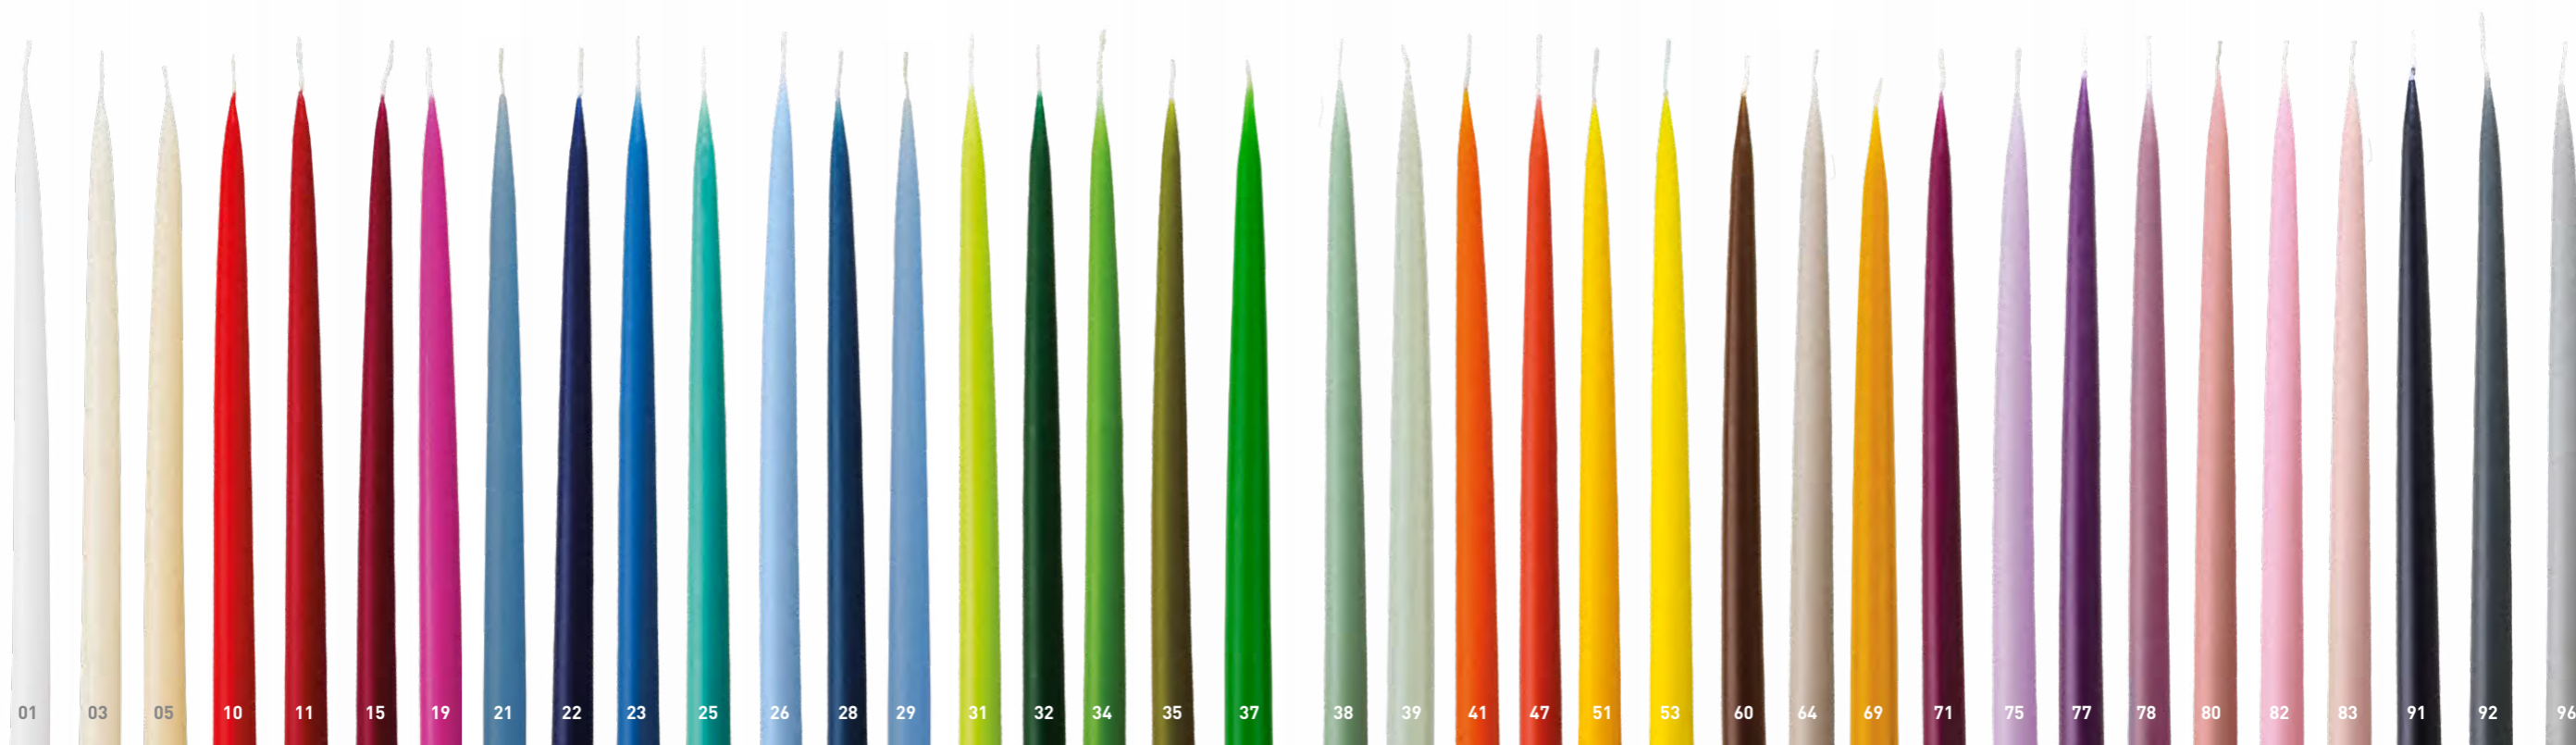

THE BELL candlestick – Large & Mini

Colour mix and match, candle and candlestick. Our Bell candlestick is available in a wide variety of colours. The Mini Bell in no less than 18 different varieties. The Bell in 9 varieties. Too much colour? You are always safe with white...

Please find more details about the Bell and Mini Bell candlesticks on page 49-50.

ACCESSORIES

CANDLE DEXTINGUISHER
To avoid toxic smoke and running wax (if you blow too hard) when you put out the candle. T-LS

CANDLE SHARPENER
Too big? The candle sharpener will solve the problem and collect the waste for you. It works just like a pencil sharpener, only bigger, and will be delivered in a ready-to-sell display

MOTHER'S LITTLE HELPER
Too small? Add one or two of these almost invisible helpers T-LAM - Golden. T-LAS - Aluminum.

FIX CANDLE
Do you want to place your candles creatively? Fix Candle is a soft candle wax that can be re-used. It works even under water and will melt and burn just like a candle if in contact with fire. T-FIX

No.	Colour	Item	Package
T-LH	White	Sharpener	24 pcs
T-LS	Metal	Extinguisher	60 pcs
T-LAM	Brass	Adaptor	100 pcs
T-LAS	Silver	Adaptor	100 pcs
T-FIX	White	Adhesive	16 pcs

HANDMADE OUTDOOR TORCHES

KUNST
INDUSTRIEN

CANDLES YOU CAN TRUST

EXQUISITE QUALITY

The best raw materials and craftsmanship are the essence of KunstIndustrien, and every design carries a story. Our collection presents a unique variety of candles; our own classic wax altar candles, the slim Italian church candles, the Giant and the eco-labelled candles, the coloured candles and the Christmas candles – they are all unique in their own way.
